“love between man and woman, where body and soul are inseparably joined and human beings glimpse an apparently irresistible promise of *happiness*.”

A mission to love

Couples who stay successfully and happily married have made marriage their mission. They choose not to “settle down” but instead adopt a proactive approach to put the fun and delight into being a man and a woman in love.

Clearly, there is a difference between loving and being “in love.” This day and a half, parish-based event provides the inspiration and insight that enables each couple to create the lifestyle and marriage they always wanted.

Living in Love offers liberating insight into how differently men and women prefer to achieve intimacy and helps couples get in touch with resources that draw them to each other to fuel their romance.

Living in Love provides a unique opportunity for married couples to reconnect with their own personal love history while gaining a joyful sense of purpose, hope, and direction for the future.
